EDUCATION

KLH Aziznagar — Hyderabad, India

Bachelor of Technology in Computer Science and Engineering

Expected Graduation: 2029

• Relevant Coursework: Data Structures, Machine Learning, Database Management Systems, Object-Oriented Programming.

| CGPA: Current

Duration: 2025 — 2029

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, HTML5, CSS3

Web Development & Frameworks: React, Vite, Node.js

Databases: SQL, PostgreSQL

Tools & Platforms: Git, GitHub, VS Code

Areas of Interest: Machine Learning, Full-Stack Web Development, Intelligent Systems

PROJECTS

Hybrid Intelligent Planning System

| JavaScript, AI Algorithms

• Smart Campus AI Planner leveraging Search, CSP, and Bayesian Inference algorithms to optimize schedules and resources.

• Implemented adaptive schedule modeling to respond to real-time resource shifts.

Banking Application

| React, JavaScript, CSS3

• Designed a modern, glassmorphic dashboard interface focusing on premium UI/UX, smooth filters, and micro-interactions.

• Simulated transaction pipelines and linked account overview widgets securely.

College Management System

| Java, SQL Database

• Developed a complete database management system to manage courses, students, and grading records cleanly.

• Integrated transactional queries to maintain data integrity across schedules.

CERTIFICATIONS

freeCodeCamp: Legacy Responsive Web Design V8 (Issued March 2026, Credential ID: srinath64312-rwd)

Simplilearn SkillUp: ReactJS for Beginners (Issued 31st May 2026, Certificate ID: 10291368)
